

# Enhance The Appearance of Your Water

**AQUATIC  
BLUE**

## Lake and Pond Dye

Ingredients: Acid Blue 9 Dye

**Aquatic Blue** is a premium blue organic water dye for use in ponds, lakes, and decorative water features with limited or no outflow. **Aquatic Blue** enhances the appearance of impounded water by dyeing it a pleasant blue to blue-green color. **Aquatic Blue** can color your aquatic resource to meet your aesthetic preference.

### WATER USE & RESTRICTIONS

Water may be used for irrigation or fishing immediately. Allow several hours for Aquatic Blue to disperse before swimming. Treated water will not harm pets, fish, waterfowl or other wildlife. Chlorinated water will cause fading, requiring higher doses or more frequent treatments.

### STORAGE AND HANDLING PRECAUTIONS

**KEEP FROM FREEZING.** Freezing can cause container to rupture. Concentrated product may be harmful if swallowed. Avoid contact of concentrated product with skin, eyes, and clothing. Wash immediately after contact. Small stains caused by accidental spillage can be removed with a liquid bleach solution.

### DIRECTIONS FOR USE

Use waterproof gloves to avoid staining of hands during application.

1. Determine water volume in acre-feet as follows:  
$$\frac{\text{Length (ft)} \times \text{Width (ft)} \times \text{average depth (ft)}}{43,560 \text{ square feet}} = \text{Acre Feet}$$
2. Apply one quart (32 oz.) Aquatic Blue per acre-foot of water.
3. Aquatic Blue may be applied by pouring directly into water.  
Application at several locations will reduce time required for dispersion and mixing.
4. Additional Aquatic Blue should be added during the year to maintain desired coloration.

**CAUTION  
KEEP OUT OF REACH OF CHILDREN**

### NOTICE

Neither the manufacturer, nor the seller makes any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of the use of this product when such is contrary to label instructions.
